**CHR SOLUTIONS/PIONEER TELCO COLLABORATION ON IPTV  
DEPLOYMENT IS RECOGNIZED NATIONALLY**

The IPTV deployment by Pioneer Telephone Cooperative (Kingfisher, OK) was featured in an article in the August 17 edition of *USA Today*. CHR Solutions was pleased to have assisted Pioneer with the business planning and financial modeling, bidding, design plans and specifications, engineering and implementation for their successful deployment.

CHR Solutions is presently assisting other clients with their IPTV planning and other network strategies for the future.

In addition to IP and engineering services, CHR Solutions provides integrated telecommunications engineering and consulting services including wireless assistance; network design and management, outside plant services; CLEC feasibility, interconnection agreements and implementation; regulatory/business compliance assistance; separations/tariffs; strategic planning; marketing, advertising and research; emerging technologies planning; financial modeling; code acquisition and provisioning administration.

CHR Solutions is headquartered in Dallas, Texas and operates other offices throughout the United States.
