CHR's Preston Pearson Earns Professional Engineer Certification

HOUSTON (January 16, 2009) – CHR Solutions, Inc., a leading provider of telecommunications engineering and infrastructure managed services, today announced that CHR's Preston Pearson has been notified by the Minnesota Professional Engineer Licensing Board that he passed his exam to become a licensed Professional Engineer. This examination is extremely rigorous; in fact, only 35 percent who attempted passed this examination. Preston is CHR's director of client services and engineer-in-charge for the states of Minnesota, Wisconsin, Montana, Nebraska, North Dakota and South Dakota.

Vince Tyson, P.E. and senior vice president of engineering for CHR Solutions, said: "Preston not only passed the exam, he passed it on the first time. We're very proud not only because of his professional achievement, but also because it's talented engineers like him who maintain and extend CHR's reputation for excellence in engineering and consulting services to the telecommunications industry."

Preston works out of CHR's Minneapolis office and lives in Hutchinson, Minnesota with his wife Andrea, son Jacob (4) and daughter Lauren (2).

About CHR Solutions

CHR Solutions helps its clients grow revenue, control costs, improve operations, manage risk, and align technology by providing infrastructure managed services, remote infrastructure management, business process outsourcing, and consulting and engineering services. It primarily serves middle-market companies in the telecommunications, financial services and energy industries. With a 70-year heritage, CHR Solutions provides local resources with global reach and world-class expertise. Its offices are in Austin, Dallas, Houston, and Lubbock, Texas; Columbia, Missouri; Camden, Arkansas; and Minneapolis, Minnesota. Visit www.chrsolutions.com for more information.
